

PAINTED IN-ICE LOGOS

JET ICE HAS YEARS OF EXPERIENCE IN THE DESIGN, PRODUCTION AND INSTALLATION OF IN-ICE LOGOS FOUND IN PROFESSIONAL HOCKEY RINKS, OLYMPIC VENUES AND LOCAL RINK FACILITIES.

In-ice logos are a simple way to bring in additional revenue. With our on-site graphic department, Jet Ice continues to lead the industry using state-of-the-art computer software and large-format digital printers to ensure your in-ice graphics are produced professionally and accurately.

STENCILED LOGOS

For the most vibrant and cost effective logos, choose paper stencils from Jet Ice. Our logo stencils are completely reusable, shipped in sturdy tubes for long-term storage and are complemented by our selection of over 1,000 colors of paint utilizing the Pantone Matching System.

These stencils are created as guides to aid in the painting of specified logos on the ice surface. Standard stencils are produced on kraft paper suitable for most applications. Alternately, stencils can be produced on Tyvek for more demanding situations. All stencils are supplied with chalk and installation instructions.
