

CURLING

JET ICE, THE SUPPLIER OF PREMIUM PRODUCTS DESIGNED AND FORMULATED WITH THE CURLING ICE MAKER IN MIND. WHEN YOU NEED ICE PAINT, DIGITAL IN-ICE LOGOS OR WATER TREATMENT SYSTEMS, TRUST THE EXPERTS AT JET ICE.

ICE PAINTS

Jet Ice has worked closely with ice makers to develop formulation improvements to Super White 3000 to achieve the brightest white with the most hiding power of any white paint available. With Jet Ice Super White 3000, base coats aren't required! Application is easy, smooth and coverage is second to none! A typical 4 sheet curling club requires: 4 boxes of Jet Ice Super White 3000, 3 pails of red and 5 pails of blue.

SPECIAL EFFECTS BLACK LIGHT PAINT

This unique product glows in the dark, providing dramatic effects when activated by black lights. Pigmentation remains sharp and crisp under normal facility lighting.

DIGITAL IN-ICE LOGOS

With our in-house graphics team and state-of-the-art production equipment, Jet Ice continues to lead the industry with digital logos. We ensure your ice graphics are produced professionally, accurately and timely and we offer a variety of products to meet your requirements.

Jet Ice Textile - Reusable fabric with excellent water transfer properties for ease of installation and excellent image quality.

Jet Ice Fabric - Single-use cloth with excellent water transfer properties for ease of installation, great image quality and economically priced.

CURLING

WATER TREATMENT SYSTEMS

When you want to provide the best sheet of curling ice possible, choose Jet Ice water treatment systems to ensure consistent ice from end to end. Jet Ice water systems are affordable, even for the smallest clubs, and can be customized to meet the dynamics of your specific requirements.

RENTAL SYSTEMS

Our standard Curling Rental System includes: Resin exchange tanks, water meter, hoses, shut-off valves. Portable rental system is easily connected to your incoming water supply.

SYSTEMS CAN BE CUSTOMIZED TO:

- Increase capacity where water quality is particularly poor, utilizing a double tank system
- Increase capacity by removing high levels of specific contaminants such as calcium or carbonates
- Include carbon block filters to ensure the removal of excess chlorine and organics

PRO-ICE®

DEVELOPED BY ICE MAKERS, FOR ICE MAKERS

If your facility wants a permanent solution to poor quality water then call Jet Ice to discuss the Pro Ice state-of-the-art reverse osmosis system for your club. Packages consist of a single or double membrane system with 200 to 400 gallons of storage, to suit demand and available space. Tank configurations are varied to accommodate space and access restrictions.

The Pro Ice system is an effective fixed asset that will provide consistent high-quality water for many years to come.

INDUSTRY ACCOLADES:

"I use this system in our Provincial Events and also in my own club. I recommend Jet Ice to any ice technician to improve their ice conditions."

Darrin Sinclair
OCA Head Ice Technician

"The curlers and ice technicians appreciate the high quality of Jet Ice products."

Hans Wuthrich
CCA Head Ice Technician

"Jet Ice consistently provides championship products and services."

Dave Merklinger
CCA National Ice Technician
